## Reviewer Acknowledgements:

GHMJ (Global Health Management Journal), Volume 8, Number 1, 2025

As [GHMJ \(Global Health Management Journal\)](#) celebrates its **8th anniversary**, we take this opportunity to express our deepest gratitude to the dedicated reviewers whose expertise and insights have significantly contributed to the quality and integrity of this edition. This edition of the **Global Health Management Journal (Vol. 8, No. 1, 2025)** presents a diverse range of research addressing critical health challenges. The **editorial** underscores the urgency of global health strategies in mitigating the adverse impacts of **climate change** on human health (Macnab, 2025). A **perspective piece** examines **Thailand's policies on PM 2.5 air pollution**, revealing hidden gaps in environmental health governance (Wongtongtair, 2025). The **best practice article** highlights the economic and nutritional potential of **Crab Abon as a sustainable fishery product** in Balikpapan, Indonesia (Haqiqiansyah, et al., 2025).

In the **research section**, studies explore the **psychosocial effects of Indonesian soap operas on Malaysian millennials** (Perdana, et al., 2025), the role of **HIV education in Indonesian schools** (Astuti, et al., 2025), and the **quality of life in heart failure patients within the obesity paradox framework** (Rachmawan, et al., 2025). Other articles analyze **personal hygiene among traditional jamu handlers** (Suryani, et al., 2025), the **transmission risks of tuberculosis in children** (Pratiwi, et al., 2025), and the **antioxidant and anti-proliferative properties of *Murraya koenigii* (L.) leaves on breast cancer cells** (Nisa, et al., 2025). This collection of articles reflects our ongoing commitment to advancing global health knowledge and solutions.
