PREFACE

On behalf of the Organizing Committee, it is an honor to welcome you all to the 2nd International Conference on Applied Science and Health (ICASH). The conference consists of a keynote speech, three special sessions, oral presentation, and poster presentation which focus on public health, nursing, midwifery, and applied science as well as related fields.

The 2nd International Conference on Applied Science and Health selected a theme "Research for Better Society: Developing Science and Technology to Improve Health and Well-being". The theme aims to exchange the knowledge and experiences to gain better understanding of the most important health and applied science issues in the South East Asia region. All papers submitted to the 2nd ICASH have been reviewed by various international scientific committee members from different countries to ensuring the quality of the accepted papers.

The 2nd ICASH is a joint conference between Faculty of Graduate Studies, Mahidol University and Semarang Health Polytechnic in Indonesia, organized by Aliansi Cendekiawan Indonesia Thailand (Indonesian Scholars' Alliance). I would like to express my deep gratitude to the aforementioned organization and person that made the conference possible. The Keynote Speaker, Prof. Sangkot Marzuki for his willingness to share his valuable knowledge and extensive experiences in the field of health science. Also to the speakers of special session Prof. Andrew J. Macnab, Prof. Rajna Jindal and Dr. Didin Agustian Permadi whose insights will be of great benefits for all participants. In addition, I would like to thank all International Scientific Committee for assisting the Organizing Committee to review papers submitted to the conference. This conference will not be possible without the participation of the authors, to whom I would like to express my thankfulness.

Prof. Dr. Patcahree Lertrit, MD
Chairperson and
Dean Faculty of Graduate Studies
